

Elk Grove Airporter

Please note that VISA, MasterCard, Discover, and American Express credit cards contain special numeric identifiers that help protect customers from fraudulent use of their account. Since these numbers are never recorded on any retail receipt, *Elk Grove Airporter* uses them to ensure that the person submitting the Reservation Request has the physical custody of the credit card.

3 Digit Card Verification Number

Cardmember ID

The Card Verification Value (CVV) for VISA credit cards is found on the signature side of the card inside the signature block. The last 3 digits constitute the CVV.

The Card member ID for Discover credit cards is found on the signature side of the card inside the signature block. The last 3 digits constitute the Card member ID.

The Card Validation Code (CVC2) for MasterCard credit cards is found on the signature side of the card inside the signature block. The last 3 digits constitute the CVC2.

The Card Identification Number (CID) for American Express and American Express Blue charge cards is found above the account number on the right side of the card face and is 4 numbers in length.

The Card Identification Number (CID) for American Express Optima charge cards is found above the account number on the left side of the card face and is 4 numbers in length.
